### Note of meeting:

#### What would support the Partnership going forward:

- Mapping of what CLD activity is being delivered across the region along with a clear understanding of what CLD activity is
- Consideration of the language being used when discussing CLD activity – may be creating barriers to participation / recognising what is CLD activity
- Review the CLD Partnership membership
- A better understanding for partners of what CLDS activity is taking place in schools. BCA can support young people who are volunteering and take them through Saltire Awards.
- An established structure for reporting future CLD activity and measuring progress
